

Dear all,
 I believe that the translation in the EX1 has already surprised you and you may be suspicious of the accuracy. In fact, the truth lies in the huge gap between Chinese and English and we have to face the fact that if there were no dictionary, the difference between two languages would be much bigger than that between cats' and dogs'. Given that, I design the special exercise to make all of you clear about how to change our native expression into idiomatic phrases and sentences in TOEFL Writing.

I wish you the marked progress during our club.

- 年轻人放学以后要有时间，他们就会去上网打游戏或者跟朋友出去浪。
- 所有的活动看起来没有意义或者很自私，不过在他们这个年纪也是可以理解的。
- 现在有些父母溺爱孩子，以至于他们没啥明确的社会责任感。
- 如果每个人都能找到适合自己的工作并且有稳定的收入，那将是一个最好的方式来解决贫困，失业和高犯罪率。
- 不能说现在的年轻人花了太多的时间学习然而太少的时间去回馈社会，因为事实上他们已经在为社会做贡献了。

When young people do have some time after school, they would prefer to spend it playing online game or hanging out with friends.

- 所有的活动看起来没有意义或者很自私，不过在他们这个年纪也是可以理解的。

All of these activities seem meaningless and selfish, but are certainly understandable considering their young age.

- 现在有些父母溺爱孩子，以至于他们没啥明确的社会责任感。

Some of today's children are spoiled by their parents and thus do have the vaguest idea about being responsible in society.

- 如果每个人都能找到适合自己的工作并且有稳定的收入，那将是一个最好的方式来解决贫困，失业和高犯罪率。

If everyone finds a job that matches his or her ability and has a stable income, this can surely be the best way to combat poverty, unemployment and the soaring crime rate.

- 不能说现在的年轻人花了太多的时间学习然而太少的时间去回馈社会，因为事实上他们已经在为社会做贡献了。

It's hard to say that young people spend too much time studying and too little to give back to society because, in fact, they already are.
